Summary

ROAM:

- Novel online platform that makes it easier for patients, families, communities and our staff to discover and participate in research
- Patient-led and Investigator-led research design
- Maintain and improve our patient clinical outcomes

Value

2000+ participants thus far

- PPIE volunteers used to shape research at Moorfields
- 60% of sign-ups are non-Moorfields patients
- 150-200 unique IP address visits per month

Patient care/ service effectiveness:

- Increased research awareness
- Increased accessibility to research

“The key aim of ROAM was to increase the awareness of research amongst patients and staff.”
